FX & Futures Margin Account

Open windows of opportunities with an FX & Futures Margin Account. With just this one account you can gain access to a host of financial instruments and trade in multiple products and currencies.

What is an FX & Futures Margin Account?

An FX & Futures Margin Account is a single account that allows you to trade in a variety of financial instruments:

- Spot Forex & Gold
- Currency Futures
- Stock Index Futures
- Interest Rate Futures
- Energy Futures

With this account, you can leverage on a small capital outlay to trade in contracts with larger values. It'll gain you access to a host of financial instruments for a variety of purposes that include capitalising on anticipated market fluctuations or hedging undesirable risk exposure due to excessive volatility in financial markets.

How can an FX & Futures Margin Account benefit me?

- One account, many products
- Capital leverage effect
- Freedom of choice in position
- Low transaction costs
- Increased trading opportunities

Foreign Exchange

By placing a relatively small capital outlay, you can trade larger contracts and make your money work harder for you, 24 hours a day. Here's how:

A simple illustration: Expecting A\$ to weaken against US\$.

1 contract size	Initial capital outlay
A\$100,000	A\$3,000 (margin requirement of 3% of contract size)
Action	Amount
Sell (1 contract of A\$/US\$ @ 0.7700)	US\$77,000
Buy (1 contract of A\$/US\$ @ 0.7600)	US\$76,000
Profit/Loss	US\$1,000

Over-the-Counter (OTC) Spot Contracts

The following major foreign currencies are offered:

Major currencies		Crosses	
USD/JPY	USD/CHF	USD/HKD	USD/SGD
USD/CAD	EUR/USD	EUR/SGD	EUR/NZD
EUR/CAD	EUR/JPY	GBP/SGD	GBP/CAD
EUR/GBP	EUR/CHF	GBP/AUD	AUD/SGD
EUR/AUD	GBP/USD	AUD/CHF	NZD/JPY
GBP/JPY	GBP/CHF	NZD/SGD	NZD/CHF
NZD/USD	AUD/USD	CAD/SGD	CHF/SGD
AUD/JPY	AUD/NZD	JPY/SGD	
AUD/CAD	CAD/JPY		
CHF/JPY			

Stock Index Futures

Trade in the global stock markets with the FX & Futures Margin Account. Now, without having to buy or sell physical stocks, you can still participate in various equity markets globally – simply by trading their respective stock index futures.

A simple illustration: Singapore's released trade data is worse than market expectations. Expecting the SiMSCI Index to weaken as a result.

1 contract size	Initial capital outlay
S\$200 x SiMSCI Index (Value of 0.1 index pt = S\$20)	S\$1,800 (margin requirement)
Action	Amount
Sell (1 contract of SiMSCI @ 258.0)	S\$51,600
Buy (1 contract of SiMSCI @ 255.0)	S\$51,000
Profit/Loss	S\$600
