Margin Trading Account

Invest more freely with  
**greater flexibility**

# The flexible account for all your trading needs

Enjoy greater financial flexibility with Margin Trading Account (MTA).

With its two facilities – margin trading and share financing – MTA lets you maximise your stock investment power by pledging collateral or withdrawing cash against existing shares.

## **Introducing share financing. Cash for all your trading needs.**

The latest feature of MTA, share financing is a secured facility for you to pledge your shares as collateral.

With share financing, your cash withdrawal is no longer limited to sales proceeds, trading profits or cash deposits.

You will enjoy the freedom of withdrawing cash from your available margin line.

## **Other great benefits you can enjoy with MTA:**

### **Up to triple the investment power**

For as little as S\$10,000 in share collateral pledged with DBS Bank, you can obtain an available margin limit of 2 times the share amount pledged. You can even triple your margin limit if you pledge cash. This way, you are able to take advantage of even more investment opportunities to maximise your returns.

### **Wide selection of shares**

Trade on a comprehensive selection of approved stocks on SGX and Bursa Malaysia.

### **Interest-free payment of up to 7 days**

Seize more opportunities with an extra 7-day interest-free grace period if you fund purchases under MTA.
